

**Eric Greenberg**  recommends Alpine Painting and Sandblasting Contractors.

May 6 at 8:35 AM · 

Alpine was here at work to finish painting a job from another contractor when I noticed the quality of their work. We asked them for a price on some concrete cleaning and painting around the sewage treatment plant. The price was reasonable. The ONLY difficult part of this job was scheduling, and that was 100% due to the weather. Once we had a week that was warm and dry enough, they came out and even finished a day early! The work was done exactly to specs, and they were even able to touch up a few extra areas for us. The work was so good that we are having them back this week for another quote on some other work we have for them.
