Short Hills Tank

Dear Mr. Zalusky,

I want to express my appreciation for the work that Alpine Painting & Sandblasting Contractors performed for New Jersey American Water at our Short Hills tank. This tank is situated in an up-scale neighborhood in Millburn Township which required that you not only meet all of our specifications, but also that you meet our customer's expectations. We bid this late in the painting season which created a very tight schedule. The site was challenging not only to work in but also to access.

Alpine Painting & Sandblasting Contractors meet every expectation and specification and went above and beyond by accommodating our aggressive schedule, leaving the area looking great and never generating a single complaint from any of our neighbors.

We are pleased to have Alpine Painting & Sandblasting Contractors as one of our limited number of pre-qualified tank painting contractors. We have never been disappointed in any of the projects you completed for us and we look forward to working with you again on future tanks paintings.

Sincerely,

James P. Scott, PE  
Sr. Engineering Project Manager
